

MISSION STATEMENT

To provide a wide range of health consultative services to the Naval Facilities Engineering Command community in support of the Navy's Installation Restoration Program (IRP), the Base Realignment and Closure (BRAC) Program, and other related environmental projects.

HISTORY

The Environmental Programs Directorate was established in May of 1991. A Memorandum of Understanding between Naval Facilities Engineering Command (NAVFACENGCOM) and the Bureau of Medicine and Surgery was signed in December 1991. Since then, we have provided health related consultative services to the NAVFACENGCOM community. In June 1995 the BUMED Claimancy Compliance Program was transferred to NAVENVIRHLTHCEN.

Staffed with environmental scientist, environmental engineers, industrial hygienists, and other support personnel, we are dedicated to providing an unbiased assessment of your environmental program documents.

OUR CUSTOMERS

- Remedial Project Managers
- Installation personnel
- BRAC personnel
- Installation Restoration Program personnel
 - ▶ Public affairs
 - ▶ Legal
 - ▶ Safety & Health
 - ▶ Contracts
